A. Disclaimer.

1. The Contingency Pesticide List, paragraph E., below, does not constitute procurement authority for pesticides listed herein. Use of trade names in this publication is solely for the purpose of providing information to aid in the identification of specific products and does not imply endorsement of the products named or criticism of products not mentioned. Products mentioned in this list do not constitute a guarantee or warranty of these products by the Armed Forces Pest Management Board (AFPMB), the Military Departments, or the DOD.

2. Most pesticides listed in paragraph E., below, and addressed in AFPMB TG 24, "Contingency Pest Management Pocket Guide," should only be applied by personnel (i.e., preventive medicine or pest control personnel) who have been formally trained and certified in accordance with DoD 4150.07-P, "The DoD Plan for the Certification of Pesticide Applicators," September 30, 1996. All other personnel should not procure or use pesticides unless specifically authorized by Service instructions, regulations, or directives.

B. Purpose.

The purpose of the Contingency Pesticide List is to provide basic information on pesticides approved by the AFPMB Contingency Advisory Group for control of disease vectors and pests during field operations worldwide. Pesticides should be used only as a part of an integrated pest management program (IPM). IPM is an approach that combines a variety of control techniques – including physical, mechanical, educational, biological, and chemical – to prevent disease and injury or economic loss due to vector arthropods and pests. Since pesticides are usually a last resort, the IPM approach reduces our dependency on pesticides and reduces the health and environmental risks associated with pesticide treatments.

C. Recording, Reporting, and Archiving Pesticide Use during Contingency Operations.

Paragraph B.3.h., DoD Instruction 4150.07, "DoD Pest Management Program," April 22, 1996, requires that pesticide use during military operations be recorded and archived. Pesticide applicators must record all pesticide applications, excluding arthropod skin and clothing repellents, performed during military operations, on DD Form 1532-1, "Pest Management Maintenance Record," or a computer-generated equivalent. Reporting pesticide use and archiving pesticide use records shall be accomplished in accordance with Service procedures.

D. Shipping Information.

1. Pesticides listed at paragraph E., below, are suitable for contingency use by the Military Services. Refer to AF Joint Manual 24-204/TM 38-250/NAVSUP 505/MCO P4030.19G/DLAI 4145.3, "Preparing Hazardous Materials for Military Air Shipments," 1 March 1997, for additional guidance on air transportation of pesticides. The International Air Transportation Association's "Shippers Declaration for Dangerous Goods" form must be used for air transport of those pesticides, which are regulated. Service Focal Points jointly establish procedures and prepare documentation necessary to implement the manual. In accordance with paragraph 1.2.2, of this manual, users should contact their Service Focal Points for all clarification and waivers. Service Focal Points are:

2. Shipping papers are required for all hazardous materials in transit and should be within the reach of transport drivers/operators at all times. Information contained on the shipping papers includes: proper shipping name, hazard class, and UN identification number, reportable quantity (RQ) if applicable, and package quantities or weight.

3. Marking regulations require information on the specific hazardous material to be visible or "marked" on the outside of the package. Information required to be marked on the packages includes proper shipping name, UN identification number and consignors or consignee's name.

4. Packages containing hazardous materials must have the appropriate Department of Transportation (DOT) Label attached to the outside container. For additional instructions, refer to Attachment 15, "Labeling Hazardous Materials," in AFJM 24-204/TM 38-250/NAVSUP PUB 505/MCO P4030-19G/DLAI 4145.3.

5. The shipping information listed below is believed to be current but may be incomplete due to revisions and/or not applicable to all conditions or situations that may exist or occur. Users must verify the suitability of the shipping information listed below prior to use.

G. Armed Forces Pest Management Board (AFPMB) Technical Guide (TG) 24, "Contingency Pest Management Pocket Guide."

1. This TG is intended for field use during exercises and contingency operations by deployed forces. It provides basic information on using pesticides and pest management equipment to control disease vectors and pests during field operations worldwide.

2. Most of the pesticides listed in paragraph E., above, and addressed in AFPMB TG 24, should only be applied by preventive medicine personnel or pest control personnel who have been formally trained and certified in accordance with DoD 4150.7-P, "The DoD Plan for the Certification of Pesticide Applicators," September 30, 1996. All other personnel should not procure or use pesticides unless specifically authorized by Service instructions, regulations, or directives.

3. You may obtain copies of TG 24 and other AFPMB publications by writing to: The Defense Pest Management Information and Analysis Center, Forest Glen Section, WRAMC, Washington, DC 20307-5001, or calling DSN 295-7479 or commercial (301) 295-7479. You may also electronically access AFPMB publications via the AFPMB home page: <http://www.afpmb.org>

4. If additional information is needed to clarify specific issues, contact the AFPMB, Contingency Liaison Officer by writing to AFPMB, ATTN: Contingency Liaison Officer, Forest Glen Section, WRAMC, Washington, DC 20307-5001, or calling DSN 295-7476 or commercial (301) 295-7476.
